PURPOSE

Our *Child Safety and Wellbeing Policy* ensures the Service meets all obligations and requirements under the Child Wellbeing Safety Act 2005 (Vic). This policy provides direction and guidance for all educators, staff and visitors (including students and volunteers) to comply with and adhere to the Education and Care Services National Law, Education and Care Services National Regulations and the Victorian Child Safe Standards to ensure the service places the safety, health, wellbeing and best interests of children as paramount in all operational decisions, actions and practices.

Our *Child Safety and Wellbeing Policy* forms part of an integrated framework of child safety policies and procedures that together support a strong child safe culture within the Service and its community.

SCOPE

This policy applies to families, staff, educators, approved provider, nominated supervisor, management, students, volunteers and visitors of the Service.

DEFINITIONS

Child abuse: is any act, or failure to act, that harms or places a child or young person at risk of harm to their physical, psychological or emotional health, wellbeing or development. Child abuse may occur as a single incident or as a pattern of incidents over time and can occur within organisations as well as within families, particularly where power, authority, isolation or poor supervision increase risk to children.

Child Safe Standards: the Standards are a compulsory framework that supports organisations to promote the safety and wellbeing of children by requiring policies, procedures and processes to prevent, respond to and report child abuse and harm concerns and allegations. There are 11 Child Safe Standards.

Code of conduct: Together with a code of ethics, the code of conduct helps guide interactions between management, educators and staff, and informs the Service's decision-making processes relating to professional standards.

Complaint: An expression of dissatisfaction made to or about an organisation related to its products, services, staff or the handling of a complaint where a response or resolution is explicitly or implicitly expected or legally required (AS/NZS 10002:2014 Complaint Management Standard).

Duty of care: refers to the legal responsibility to adequately protect children in care from harm. This common law concept applies to all staff members within any Victorian early childhood service and is usually expressed as “*a duty to take reasonable steps to protect children from injury that is reasonably foreseeable.*” Victoria State Government – [Understand your obligations to protect children](#) (2026).

Inappropriate conduct to a child: Is any behaviour that a reasonable person would consider to be inappropriate in an education and care service, taking into account the child’s age, development, safety, wellbeing and the context of the interaction.

IMPLEMENTATION

Our Service is committed to creating and maintaining a child safe environment. All educators, staff and volunteers are responsible for promoting a culture of safety and wellbeing to minimise the risk of child abuse, neglect or harm to children while promoting children’s sense of security and belonging.
